

SolCast

A State of the Art Call Broadcasting System

Overview

SolCast can broadcast pre-recorded phone messages to any number of call recipients, simultaneously.

It can be purchased as a stand-alone appliance or an optional add-on to the SolSwitch Business Phone System. This technology has both commercial and community applications.

How Can SolCast Help You?

You want to stay in contact with regular customers and communicate important messages to people who are counting on hearing from you; the SolCast works with you.

Messages are delivered to both individuals and answering machines. If the SolCast detects a no-answer condition or busy signal, the message can be scheduled for delivery at a later time.

Complete online-reports are available to view the effective delivery of messages in this fashion.

Here are some examples of SolCast applications:

- Appointment reminders
- Membership renewals
- Oil change reminders
- Warranty renewals
- Debt reminders or notices
- Emergency alerts
- Special offers & incentives
- Service pickup or delivery notifications

Giving you the **reach** you've always wanted...
